✳️ Annual Sports day

February 14th, 2026

Parents joined the classroom to read aloud, making story time fun, engaging, and memorable for the children.

✳️ Jummah Mubarak!

February 20th, 2026

Students explored professions, dressed up, and showcased their dream careers, inspiring confidence and creativity.

Academic Spotlight

Annual Sports day 2026 A Day Packed with Power & Play

Prodigy High celebrated Sports Fest 2026 with great enthusiasm and vibrant energy. Students from all grades participated in exciting track races, rhythmic gymnastics, and team games, showcasing their skills, confidence, and months of dedicated practice. The event promoted healthy competition, teamwork, and perseverance.

A major highlight was the thrilling dodge ball match between The Red Hawks and The Blue Jays. After an intense and competitive game, The Blue Jays emerged victorious, earning loud cheers and applause. Sports Fest 2026 was truly a celebration of unity, sportsmanship, and excellence.

Jummah Mubarak!

Jummah Day at Prodigy High was celebrated with devotion and meaningful activities. Students created prayer mats, prepared sadaqah boxes, and learned about kindness and generosity through inspiring stories and discussions.

The day concluded with a peaceful iftar and dua, fostering gratitude, unity, and strong moral values among our young learners.

Creative Clay Workshop

Prodigy High hosted an engaging Clay Activity session for preschool and elementary students, guided by a professional clay-work expert invited to the school. The young learners explored basic clay-handling techniques such as rolling, pinching, shaping, and joining to create simple models and figures. This hands-on experience encouraged creativity and imagination while giving students the confidence to express ideas through art. With step-by-step guidance, children transformed soft clay into meaningful creations, making learning joyful, interactive, and memorable.

Clay work plays a vital role in early childhood development. It strengthens fine motor skills and hand-eye coordination, supports sensory exploration, and enhances focus and patience. As students plan and build their models, they practice problem-solving, spatial awareness, and independent thinking. Collaborative clay activities also promote communication and teamwork, helping children share materials, exchange ideas, and appreciate each other's creativity. Experiences like these nurture artistic expression while building foundational cognitive and social skills in a fun, developmentally appropriate way.

Monthly Highlights

UPCOMING EVENTS

* Spring Plantation Drive

March 4th, 2026

Our students will get hands-on with clay, shaping and creating imaginative masterpieces in this fun upcoming event!

* Parent Teacher Meeting

March 28th, 2026

Activity Corner

Aster Inter-School Gymnastics Championship 2026

Prodigy High proudly secured Second Position at the Aster Interschool Gymnastics Championship 2026, showcasing exceptional talent and determination. Students from both the Preschool and Elementary sections impressed the judges with their grace, strength, balance, and confident performances. Abdullah Ali also brought special pride to the school by securing a 3rd Position Trophy for his outstanding performance.

Their dedication and teamwork earned them a proud collection of gold, silver, and bronze medals, making it a truly celebratory moment for the school.
